### Big Step Forward

Technology has come a long way since Bible Quizzing began back in the 1950's; Unfortunately, Bible quiz equipment has not kept pace. Hold on tight! We're about to change all that!

Designed with an eye to the future, our MatchMaker line of quiz equipment uses the latest technologies. Imagine running a quiz using your computer, sending the results to another computer that tallies all the scores, and then with the click of a button, publishing the results to the web, with cross-linked ESPN-like stats. That is the promise of MatchMaker.

## USB Interface • \$74.95

Our USB Interface was designed to be an inexpensive way for districts to add computer scoring to their meets. Combined with our free NextGEN™ scoring software and your existing pads or benches, you have a very inexpensive way to add a lot of excitement to your quiz matches.

Just like our Console, the Interface controls up to 4 teams of 5. But unlike our Console, the Interface must be attached to a computer. This makes the Interface most appropriate for districts, and the Console a better choice for local churches.

## Additional Pads • \$74.95

String of five pads connected by a 17-foot cable and bound by a Velcro strap. Each pad has a robust three-switch construction enclosed in a durable rubber cover. Ample space between pads allows for flexible seating arrangements. (Note: For use with MatchMaker quiz equipment only.)

## Deluxe Carrying Case • \$24.95

A large interior compartment holds up to four sets of pads, and smaller compartments hold the Interface or Console, and their cables. Additional compartments hold pens and scoresheets.
